

Distributors of The Little Beaver - Mechanical Earth Drill

- Lightweight, powerful, reliable
- High speed auger rotation digs holes quickly and cleanly
- Torque-free digging eliminates kickback

Applications:

- Fencing
- Decks
- Landscaping
- Sign erection

Engineered to work... and to last!

With custom built heavy-duty transmissions that feature cooling fins for quick heat dissipation, o-ring seals, and heat treated shafts and bearings mounted in an oil bath.

A convenient snap button holds the auger securely to the transmission adaptor and lets you easily connect or remove augers and extensions without pins or tools.

The engine throttle control and the on/off switch are conveniently located on the left handle. Padded handles are ergonomically designed for less fatiguing operation.

Little Beaver offers a complete line of snap-on augers in 91cm length. Diameters range from 15cm to 30cm. We also offer snap-on extensions, in both full flighted and tube configurations.

COMPLETE LINE OF ONE MAN EARTH DRILLS, AUGERS AND MINI-TRENCHERS
